NOTICE OF INCOMPLETE NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

A filing date has NOT been accorded to the above-identified application papers for the reason(s) indicated below.

All of the items noted below and a newly executed oath or declaration covering the items must be submitted within **TWO MONTHS** of the date of this Notice, unless otherwise indicated, or proceedings on the application will be terminated (37 CFR 1.53(e)).

The filing date will be the date of receipt of all items required below, unless otherwise indicated. Any assertions that the item(s) required below were submitted, or are not necessary for a filing date, must be by way of petition directed to the attention of the Office of Petitions accompanied by the \$130.00 petition fee (37 CFR 1.17(i)). If the petition states that the application is entitled to a filing date, a request for a refund of the petition fee may be included in the petition.

- The specification is missing.
- The specification does not include at least one claim.

The required items noted below **SHOULD** be filed along with any items required above. The filing date of this nonprovisional application will be the date of receipt of the items required above. The items noted below must be filed no later than **TWO MONTHS FROM THE FILING DATE ACCORDED THIS APPLICATION**.

- The oath or declaration is unsigned.

*A copy of this notice **MUST** be returned with the reply.*

PETITIONS OFFICE

**PETITION UNDER 37 CFR 1.53(e) TO SHOW RECEIPT OF ITEM
IN RESPONSE TO NOTICE OF INCOMPLETE NONPROVISIONAL
APPLICATION**

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir or Madam:

The attached Notice of Incomplete Nonprovisional Application was mailed to Applicant in the above-captioned patent application on March 7, 2001. The Notice provides that the specification and the specification with at least one claim was omitted when the above-captioned patent application was filed in the U.S. Patent and Trademark Office.

With this petition, Applicant respectfully asserts that a specification with at least one claim, which is enclosed, was included with the application on pages 1-143, including two pages which were both labeled page 85, when filed in the U.S. Patent and Trademark Office on December 22, 2000. In addition, 99 pages of drawings were included with the application. Therefore, Applicant respectfully requests that the entire specification on pages 1-143, including two pages labeled page 85 be afforded a filing

Attorney Docket No. 404332000200

date of December 22, 2000, along with the 99 pages of drawings. Under Section 503 of the Manual of Patent Examining Procedure (MPEP), a returned, un-annotated postcard is prima-facie evidence that all the items properly identified and itemized on the postcard were received by the Patent and Trademark office on the date stamped on the postcard (Office Date stamp).

Enclosed is a photocopy of the postcard filed with the application which itemizes and properly identifies the components filed with the application. Specifically, the postcard identifies a specification and one page of claims and there is no annotation on the postcard noting that these items were not received. Also, the postcard bears an Office Date stamp showing that the application papers were filed on December 22, 2000. Thus, the returned, un-annotated postcard provides prima-facie evidence of receipt in the Patent and Trademark Office of the specification with at least one claim of the above-captioned application.

Further, the Express Mail receipt (copy enclosed) indicates that the weight of the package was indicated as 2 lbs. 9 ounces. The complete patent application that is in our file weighs approximately the same amount. The weight of the application without the specification on page 1-85 is only 1 lb. and 15 ounces. (See declaration of Charmayne Wilson). Therefore, this indicates that the package that was mailed contained the entire specification on pages 1-143 the 99 pages of drawings.

In addition, a new Provisional Patent Application with identical contents absent one claim was filed on the same day. The Express Mail Receipt for this Express Mail envelope notes the weight as 2 lbs. 10 ounces. A copy of the file history for this application (Serial No. 60/258,112 contains pages 1-85 of the specification (see Declaration of Charmayne Wilson). The weight of the two packages sent was approximately the same, serving as further evidence that the non-provisional application sent contained a specification.

As further proof of receipt in the Patent and Trademark Office of the specification with at least one claim, Applicant's legal representative, Morrison & Foerster, LLP, has a standard procedure which is followed when filing a new patent application. Specifically,

Attorney Docket No. 404332000200

Applicant's legal representative makes an exact photocopy of the application as filed just prior to placing the application in an Express Mail envelope and forwarding the envelope to the PTO. The photocopy of the application is then filed in the center section of a tri-fold file which is marked with client identification information.

As attested to in the attached Declarations of Stephen C. Durant, Donalyn Pryor and Charmayne Wilson in support of this petition, all of whom prepared and filed the application in the present case, this procedure was followed in the filing of the present application. Specifically, Charmayne Wilson declares that she generated an original copy of the specification, produced an exact photocopy thereof, and placed the photocopy in the center section of a tri-fold file folder marked with client identification information. Specifically, Donalyn Pryor declares that she placed the original specification in an Express Mail envelope addressed to the Assistant Commissioner of Patents. Additionally, Stephen C. Durant declares that he accepted this envelope from Donalyn Pryor and deposited it with the U.S. Postal Service on December 22, 2000.

Further, as attested to in the attached declaration of Stephen C. Durant in support of this petition, the tri-fold file used by Applicant's representative in this case contains includes a specification on pages labeled 1 to 143, with two pages labeled page 85, and one page of claims on the page labeled 143.

Finally, after placing the photocopy of the application in the center section of the tri-fold file folder, the photocopy of the application was not removed therefrom or otherwise tampered with by Donalyn Pryor and Charmayne Wilson, or Stephen C. Durant from the time the application was filed to the time that Stephen C. Durant checked the photocopy of the application for the presence of the specification with at least one claim, and, these are the only three people employed by Applicants representatives who have had any connection with the filing of the present application. Thus, there is no reason for any other person to have tampered in any way with the photocopy of the application or the tri-fold file folder in general.

In sum, the photocopy of the application in the tri-fold file folder is an exact photocopy of the specification sent to the PTO. Further, the photocopy contains a specification with at least one claim. Finally, the photocopy of the application was not

Attorney Docket No. 404332000200

tampered with in any way between the time that it was placed in the tri-fold file folder and the time it was checked for completeness. Accordingly, the complete application, including the specification with at least one claim, must have been included in the envelope to the PTO.

As explained above, and as shown by the enclosed documents, Applicant respectfully asserts that the specification with at least one claim was mailed to the patent trademark office on December 22, 2000. Thus, Applicant respectfully requests that the entire specification, labeled pages 1-143 with two pages labeled 85, be accorded a filing date of December 22, 2000.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket no. 404432000200. However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

PETITIONS OFFICE

**DECLARATION OF DONALYN PRYOR IN SUPPORT
OF PETITION UNDER 37 CFR 1.53(e) TO SHOW RECEIPT OF ITEM
IN RESPONSE TO NOTICE OF INCOMPLETE NONPROVISIONAL
APPLICATION**Commissioner for Patents
Washington, D.C. 20231

Dear Sir or Madam:

I, Donalyn Pryor, hereby declare that:

I am employed by the law firm of Morrison & Foerster, LLP, having offices at 425 Market Street, San Francisco, CA 94105 (Morrison & Foerster). Morrison & Foerster is Applicant's legal representatives in the above-captioned matter. I work assisting Stephen C. Durant, the prosecuting attorney of record in the above-captioned matter. I also work with Charmayne Wilson, another employee of Morrison & Foerster, LLP who assists Stephen C. Durant.

Prior to filing any patent application in the United States Patent and Trademark Office (PTO), it is the policy and procedure of Morrison & Foerster to print out a complete copy of the specification of a patent application, make an exact photocopy of the complete original specification, along with any drawings and other formal papers, and

Attorney Docket No. 404332000200

file the photocopy in the center section of a tri-fold file folder marked with client identification information. The original specification, along with any drawings and other formal papers, is then placed in an Express Mail envelope the envelope is sealed, and the application is deposited with the U.S. postal service by the person named on, and signing, the Certificate of Express Mailing included with the patent application.

I consistently follow this procedure when preparing and filing United States patent applications.

I followed this procedure on December 22, 2000 when preparing and filing the above-captioned patent application. Specifically, I received the original specification, along with the drawings and other formal papers from Charmayne Wilson. I placed the original specification, along with the drawings, a return receipt post card, and transmittal letter, in an express mail envelope addressed to the Assistant Commissioner of Patents at the PTO. I then provided this envelope to Stephen C. Durant, identifying it as the above-captioned patent application.

Since filing the photocopy of the application in the center section of the tri-fold file folder, I have not removed the photocopy of the application therefrom or otherwise tampered with or added any pages to the photocopy of the application. Additionally, Charmayne Wilson and I have had primary responsibility for the tri-fold file folder from the time the application was filed. To the best of my knowledge, the tri-fold file folder has remained in the offices of Morrison & Foerster since the time the application was filed.

Also, on December 22, 2000, I prepared a new Provisional Patent Application with identical contents absent one claim. The Express Mail Receipt for this Express Mail envelope notes the weight as 2 lbs. 10 ounces.

I further declare under penalty of perjury under the laws of the United States of America that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these

statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket no. 404332000200. However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

**DECLARATION OF STEPHEN C. DURANT IN SUPPORT
OF PETITION UNDER 37 CFR 1.53(e) TO SHOW RECEIPT OF ITEM
IN RESPONSE TO NOTICE OF INCOMPLETE NONPROVISIONAL
APPLICATION**Commissioner for Patents
Washington, D.C. 20231

Dear Sir or Madam:

I, Stephen Durant, declare that:

I am a partner with the law firm of Morrison & Foerster, LLP., having offices at 425 Market Street, San Francisco, CA 94105 (Morrison & Foerster). Morrison & Foerster is Applicant's legal representative in the above-captioned matter.

On December 22, 2000, I accepted an Express Mail envelope from Charmayne Wilson, my patent assistant, which was identified as containing the above-identified patent application. Also on December 22, 2000, I deposited this same envelope with the U.S. Postal Service. I witnessed the Postal Clerk weigh the envelope and complete the Express Mail Receipt noting the weight as 2 lbs. 9 ounces, copy attached as Exhibit 1. Also, on December 22, 2000, I witnessed the Postal Clerk weigh the Express Mail

Attorney : set No. 404332000200

envelope for U.S. Provisional Application Serial No. 60/258,112 Express Mail Receipt noting the weight as 2 lbs. 10 ounces, copy attached as Exhibit 2.

I am aware that Charmayne Wilson, my patent assistant, prepared a photocopy of the present patent application as filed and attached it to the center section of a tri-fold file folder marked with client identification information. I have reviewed the photocopy of the above-referenced patent application attached to the center section of a tri-fold file folder marked with client identifying information and retained by Morrison and Foerster. Prior to my review of the photocopy of the application for purposes of making this declaration, I did not handle in any way the tri-fold file folder or photocopy of the application attached thereto.

The photocopy of the specification of the patent application includes a specification on pages 1 to 143, with two pages labeled page 85, and a page of claims on the page labeled 143.

Charmayne Wilson, Donalyn Pryor and myself are the only people employed by Morrison & Foerster who were involved with the preparation and filing of the present application. I know of no reason why any other person employed by Morrison & Foerster would have handled the photocopy of the patent application in the tri-fold file folder.

I further declare under penalty of perjury under the laws of the United States of America that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

Attorney . ket No. 404332000200

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket no. 404332000200.

However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Dated: May 7, 2001

PETITIONS OFFICE

**DECLARATION OF CHARMAYNE WILSON IN SUPPORT
OF PETITION UNDER 37 CFR 1.53(e) TO SHOW RECEIPT OF ITEM
IN RESPONSE TO NOTICE OF INCOMPLETE NONPROVISIONAL
APPLICATION**Commissioner for Patents
Washington, D.C. 20231

Dear Sir or Madam:

I, Charmayne Wilson, hereby declare that:

I am employed by the law firm of Morrison & Foerster, LLP, having offices at 425 Market Street, San Francisco, CA 94105 (Morrison & Foerster). Morrison & Foerster is Applicant's legal representatives in the above-captioned matter. I work assisting Stephen C. Durant, the prosecuting attorney of record in the above-captioned matter. I also work with Donalyn Pryor, another employee of Morrison & Foerster, LLP who assists Stephen C. Durant.

Prior to filing any patent application in the United States Patent and Trademark Office (PTO), it is the policy and procedure of Morrison & Foerster to print out a complete copy of the specification of a patent application, make an exact photocopy of the complete original specification, along with any drawings and other formal papers, and

Attorney Docket No. 404332000200

file the photocopy in the center section of a tri-fold file folder marked with client identification information. The original specification, along with any drawings and other formal papers, is then placed in an Express Mail envelope the envelope is sealed, and the application is deposited with the U.S. postal service by the person named on, and signing, the Certificate of Express Mailing included with the patent application.

I consistently follow this procedure when preparing and filing United States patent applications.

I followed this procedure on December 22, 2000 when preparing and filing the above-captioned patent application. Specifically, I printed out an original copy of the specification, I photocopied the application, including the specification and drawings, and placed the photocopy of the application in the center section of a tri-fold file folder marked with client identification information. I then handed the original specification, along with the drawings, and other formal documents to Donalyn Pryor.

Also, on December 22, 2000, I prepared a new Provisional Patent Application with identical contents absent one claim. The Express Mail Receipt for this Express Mail envelope notes the weight as 2 lbs. 10 ounces. I obtained a copy of the file history for this provisional patent application (Serial No. 60/258,112), and it contains a specification of pages 1-85.

Since filing the photocopy of the application in the center section of the tri-fold file folder, I have not removed the photocopy of the application therefrom or otherwise tampered with or added any pages to the photocopy of the application. However, I since then removed the patent application that was in our patent file to determine the weight of the application as approximately 2 lbs. 13.6 ounces. In addition, I weighed the application without pages 1-85 of the specification, and the weight was 1 lb. and 15 ounces.

Additionally, Donalyn Pryor and I have had primary responsibility for the tri-fold file folder from the time the application was filed. To the best of my knowledge, the tri-

fold file folder has remained in the offices of Morrison & Foerster since the time the application was filed.

I further declare under penalty of perjury under the laws of the United States of America that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

In the unlikely event that the transmittal letter is separated from this document and the Patent Office determines that other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket no. 404332000200. However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

JUL - 6 2001

Dear Sir or Madam:

PETITIONS OFFICE

I, Donalyn Pryor, hereby declare that:

I am employed by the law firm of Morrison & Foerster, LLP, having offices at 425 Market Street, San Francisco, CA 94105 (Morrison & Foerster). Morrison & Foerster is Applicant's legal representatives in the above-captioned matter. I work assisting Stephen C. Durant, the prosecuting attorney of record in the above-captioned matter. I also work with Charmayne Wilson, another employee of Morrison & Foerster, LLP who assists Stephen C. Durant.

Prior to filing any patent application in the United States Patent and Trademark Office (PTO), it is the policy and procedure of Morrison & Foerster to print out a complete copy of the specification of a patent application, make an exact photocopy of the complete original specification, along with any drawings and other formal papers, and

file the photocopy in the center section of a tri-fold file folder marked with client identification information. The original specification, along with any drawings and other formal papers, is then placed in an Express Mail envelope the envelope is sealed, and the application is deposited with the U.S. postal service by the person named on, and signing, the Certificate of Express Mailing included with the patent application.

I consistently follow this procedure when preparing and filing United States patent applications.

I followed this procedure on December 22, 2000 when preparing and filing the above-captioned patent application. Specifically, I received the original specification, along with the drawings and other formal papers from Charmayne Wilson. I placed the original specification, along with the drawings, a return receipt post card, and transmittal letter, in an express mail envelope addressed to the Assistant Commissioner of Patents at the PTO. I then provided this envelope to Stephen C. Durant, identifying it as the above-captioned patent application.

Since filing the photocopy of the application in the center section of the tri-fold file folder, I have not removed the photocopy of the application therefrom or otherwise tampered with or added any pages to the photocopy of the application. Additionally, Charmayne Wilson and I have had primary responsibility for the tri-fold file folder from the time the application was filed. To the best of my knowledge, the tri-fold file folder has remained in the offices of Morrison & Foerster since the time the application was filed.

Also, on December 22, 2000, I prepared a new Provisional Patent Application with identical contents absent one claim. The Express Mail Receipt for this Express Mail envelope notes the weight as 2 lbs. 10 ounces.

I further declare under penalty of perjury under the laws of the United States of America that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these
